

WHY PLAY COMPETITIVE SOCCER?

If you have been thinking about playing competitive soccer, here are five reasons to consider committing comp:

1. PROFESSIONAL TRAINING CATERED TOWARDS PLAYER DEVELOPMENT

All of our licensed coaches are committed to making each player evolve in all areas of the game. As a club, we follow advanced curriculum provided by Vista Storm S.C. and the United States Soccer Federation.

2. MORE CONSISTENT TRAINING

Most competitive teams play for ten months, and generally train twice a week during this time period. Throughout the season, our competitive program also offers free clinics to assist player's technical, tactical and physical development.

3. PLAYING WITH MORE COMPETITIVE PLAYERS

One of the best ways for players to progress is to consistently play with more skilled players who are more competitive. Overall, the mentality and ability of competitive players will force individuals to develop at an accelerated rate.

4. PLAYING AGAINST MORE COMPETITIVE PLAYERS

Another great way for players to evolve is to consistently play against more competitive players and teams. In their league and tournament play, our competitive players are pushed to play at a higher level every time they step on the field.

5. LIFE-LESSONS AND LIFE-LONG RELATIONSHIPS

Competitive soccer teaches players a greater sense of commitment, discipline and accountability which will help them on and off the field. They will also be a part of a more consistent team structure that creates stronger bonds between coaches, teammates and parents.

At Vista Storm S.C. we understand that all families and players are not ready for the jump to competitive soccer. But, if you read this and are intrigued, we encourage you to attend our tryouts in January.
